

# STRATEGIC PREVENTION SOLUTIONS

## About Us & Our Approach

Strategic Prevention Solutions is a dynamic planning, development, and research firm that works with federal, state, community, and tribal entities to address and prevent social, behavioral, and public health problems by partnering on efforts to improve individual and collective wellness.

We are community psychologists, researchers, empowerment evaluators, and public health practitioners well-versed in industry best practices and experienced at implementing and improving programs, systems, and policy efforts.

Our team is comprised of published and experienced experts from a variety of disciplines including public health, public administration, and psychology. We partner alongside our clients, focusing on empowerment and capacity building to promote participatory and contextually relevant planning and evaluation projects. We hold our clients at the center of our work, balancing needs, resources, and methodological rigor.

### Primary Areas of Expertise

- Intimate partner violence, sexual assault, stalking, and child abuse
- Mental health, suicide, and resiliency
- Youth violence and bullying
- Substance misuse
